

### REMARKS

Claims 1-11, 13-24, 26-30, 33-38, 40-45 and 47-56 are in this application and are presented for consideration. Claims 13, 18, 26, 41 and 44 have been amended.

The claims have been amended to address the Examiner's objections, and to place the application in better form. The claims have also been amended in accordance with the Examiner's indication of allowable subject matter. Applicant thanks the Examiner for the careful reading of this application, for pointing out discrepancies, and indicating allowable subject matter.

Independent claims 18, 41 and 44 have been amended to include wording similar to the wording in allowable independent claims 1 and 47. Independent claims 18, 41 and 44 should now overcome the rejections with regard to form, and should now also be allowable.

Claims 13 and 26 have been amended to indicate all of the structure which is enveloped by plastic. One embodiment of the combination set forth in these claims is shown in figure 2, and is described in the specification in paragraph 24, page 5 lines 14-17.

It is applicant's position that this amendment modifies the present application according to the indicated allowable subject matter. This application should now be in conformance with US Patent regulations and applicant respectfully requests that this application be passed to issuance.

Applicant again thanks the Examiner for indicating allowable subject matter. If the Examiner has any comments or suggestions which would further favorable prosecution of this application, the Examiner is invited to contact applicant's representative by telephone to discuss

possible changes.

Favorable action on the merits of this application is respectfully requested.

Respectfully submitted  
for Applicant,
